THE following advertisement was published in May, I 1840, in the "Boson Daily Timer," and various other merspapers in the United States, by Jonnes G. Wilson, Esq. the owner of the "Woodworth Fatent," shortly after I had devertised my "FATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States: "I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stadonary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of their true worth. I would state for the information of their true worth. I would state for the information of the enquirers that they will find substantially the machine now othered by several pretending inventors, described in the 10th column of the Repertory of Arts, incented by Samuel Benthan, in the year 1791. A like machine was patented in this country by one Kugler, some six tentyers since, and another one put up by Albert Richards of West Troy, X. Y. and abandoued about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in the left of any value for the purposes contemplated.

I will furnish a sistificancy Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and they per cent for my trouble, at the cost of the machine and they per cent for my trouble.

The attention of the public is called to this article as being superior to Pearlash Saincratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Sold iseing more congenial to the human system than Potash. It is more economical than Pearlash Saincratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co.'s Washing & Cleansing Powders, which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften have water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to ruse. CAPITAL \$100,000. The Directors feel grateful to the public for having thus any manifested their approval of and countenace in this formance. After leaving been in operation ten months, we are able to report as follows:

State 3 few existing facts with the Warmington and monogomery;—
The Washington County Mutual commenced in 1556, by collecting thirty cents on 5190; in 1545 they fact discovered that this was installed in to pay losses, and risked to 33 cents, and from are collecting 50 cents on each 5190; the result of which is, by their report, Jan. 1, 1556, Story in the treasury, and 65 million at rick, on which they will probably loss two hundred thousand, making their actual delt 191 thousand.

The Mantagemers County Nutual is another example of

on the state of minion in risk, on which they will probably lose two hundred thousand, making their cettal dett. In thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little lenger than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. I, 180, that their loses and exh expenses had exceeded their cash receipts, twenty-mine thousand dollars, and inhere thousand dollars, and shown the thousand dollars, and some thirty millions at risk, on which they will probably like ninety thousand dollars more, making thir actual dolf one hundred and thirty-four thousand dollars.

The eash premiums now colected by those two companits on what they incure in future will only pay loses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these commons debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to warder in the Valley of the Missishipi where they are not so well known for budiess. Arch Elshop and Lectic Wilcox in we publish, as heretofore, their time belief that no tax will care he necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have sied a tax on their peenium notes. Since the above reports, the Montgomery have yied a tax on their pseudium notes.

Now we would ask the thoulist candidits, which of these three compounds as the chief interest to fisure in; the Washington discussed in the Montgomery, and assume a debt of \$191,400, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever recording to a tax.

Ketchum & Comstock, HATTERS,

202 Main Street, Buffalo. We would respectfully call the attention of our many friends, and the public generally, to an in-strument we have recently imported from Paris, called a "Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those whe take pleasure in witnessing the inventions of the ingenions, to call and see the operations of this curious instrument.

Having adopted the Cash System (which all will readily acknowledge to be the box.) we are enabled to sell the best Silk Hat made, at the extreme low price of \$1.25; surpassing any \$5 Hat sold in this city. Our Hata are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
